# **SEISMIC HAZARD ZONE MAP NOT DISTRIBUTED**

\*\*\*\*\*

The preliminary Seismic Hazard Zone map of the LITTLE BUTTES QUADRANGLE was first released in April 2003. It has since been re-evaluated using revised zoning criteria adopted by the State Mining and Geology Board in April 2004. Since no earthquake-induced landslide or liquefaction zones are now delineated in the quadrangle, distribution of the seismic hazard zone map is considered unnecessary.

Please refer to [SP118](#) to examine revised seismic hazard zoning criteria
